Industrial, artisanal and small-scale mining in protected areas: Key trends and what the future may hold

Presenter: Dr Yolande Kyngdon-McKay
Associate, Estelle Levin Ltd

This presentation will be looking at public and private sector responses to the issue of mining in protected areas. It is relevant to anyone who has an interest in human land use impacts, how they are (and can be) governed, and the role of protected areas in conserving biodiversity.

Dr. Kyngdon-McKay has over ten years’ experience working in and researching multiple extractives-reliant industries, including diamonds, jewellery and electronics. Her experience has ranged across a wide area, including analysing the environmental impacts of extractives activities, extractives industry governance, the ASM sector, CSR, protected area conservation, labour rights issues, fair trade gold and diamonds, supply chain ethics and sustainability, competition policy, downstream sourcing, and policy analysis and development. Yolande consults governments, development agencies, NGOs and private sector clients around the world. She completed her PhD on the diamond industry at the University of New South Wales, Australia.

PUBLIC SEMINAR

Date: Thursday
13 August 2015
Time: 10:30am-11:30am
Location:
Level 4 Seminar Room
Sir James Foots Building (47A)
Sustainable Minerals Institute
